### APPLICATION OF TARIFF RULES AND REGULATIONS

(A) Rules and charges published herein apply for:

2. Transportation performed jointly by Alaska Airlines and other carrier(s) under combination of applicable local rates, or under applicable joint rates, as published by Alaska Airlines.
3. Air cargo traveling as GoldStreak Package Express, as published by Alaska Airlines.

(B) Transportation:

1. Transportation is subject to the rules and charges in effect on the date of acceptance of the shipment by Alaska Airlines. If a shipment is tendered to Alaska Airlines by another airline the Rules and Regulations of the originating carrier shall apply unless such Rules and Regulations are in conflict (are more general or are less strict) with these Rules and Regulations, in which event these Rules and Regulations shall govern during the period in Alaska Airlines’ care, custody or control.
2. For interline shipments in which Alaska Airlines is a participant the most restrictive carrier’s cargo size limitations shall apply.

(C) Only Officers of Alaska Airlines have the authority to alter, modify, or waive any provision of the Contract of Carriage or of these Rules and Regulations.

(D) Rates and charges published in these Rules and Regulations do not apply when scheduled service is not available.

(E) Service to some cities is operated under a Substitute Service agreement between Alaska Airlines and another carrier. Alaska Airlines has such agreements with the following carriers:

- Horizon Air, Inc
- PenAir, Inc
- ERA Helicopters, Inc

Exceptions and additional requirements are noted in these Rules and Regulations, as applicable.

### DEFINITIONS

- **Advanced Arrangements** – the Shipper must contact Alaska Airlines prior to shipment to determine whether the Shipment is acceptable for transportation, to receive pertinent information, and to establish a date, time and place of tender.
- **Air Waybill** – a non-negotiable shipping document issued by Alaska Airlines or another air carrier covering the Contract of Carriage between the airline and the Shipper.
- **Chargeable Weight**
  - For containers: the gross weight less any Tare Allowance with a minimum charge of 3500 cubic feet.
For bulk shipments: the weight amount being used to compute charges can be actual or dimensional weight (see CHARGES FOR WEIGHT).

- Consignee – the person or company whose name appears on the Air Waybill as the party to whom the Shipment is to be delivered.
- Contract of Carriage – the agreement between the Shipper and the airline that the Shipment will be handled according to the terms if the Rules and Regulations. The Air Waybill serves as the contract.
- Declared Value – the value of the Shipment declared by the Shipper at the time the cargo is tendered to the carrier (see CHARGES FOR DECLARED VALUE).
- Delivery Receipt – a copy of the Air Waybill signed by the Consignee at the time of receipt of the Shipment.
- Gross Weight – the total actual physical weight of the Shipment and any Container(s).
- On-Line – transportation which is solely over one airline’s route system.
- Pallet Supporter (Slave Pallet) – a portable conveyor base placed under a Container for the purpose of positioning such Container for loading and unloading.
- Perishable – a shipment that is likely to deteriorate or perish due to climate, temperature, or the passage of time.
- Rule – a numbered section of this document.
- Seal – a shipper-provided fastening device identifiable by letters, numbers or a combination thereof to secure the contents of a container or another unit of packaging and which device, when broken, will evidence opening of the container or package.
- Shipment – a single consignment of one or more pieces, from one Shipper at one time at one address, accepted by Alaska Airlines in one lot and moving on one Air Waybill, destined to one Consignee at one address.
- Shipper – the person or company whose name appears on the Air Waybill as the party contracting with Alaska Airlines for the carriage of the Shipment.
- Substitute Service Flight(s) – flight(s) operated under a contractual agreement between Alaska Airlines and another carrier, which allows carriers to provide service under the two-letter Official Airline Guide (OAG) designator (AS) of Alaska Airlines.
- Tare Allowance – the number of pounds per Container:

**DISPOSITIONS OF FRACTIONS**

(A) Fractions of pound will be assessed at the charge for the next higher pound.
(B) In computing charges, fractions of less than one half cent will be dropped and fractions of one half cent or more will be considered as one cent.
(C) Before computing cubic dimensions, fractions of less than one half inch will be dropped and of one half inch or more will be considered as one inch.
AIR WAYBILL AND SHIPPING DOCUMENTS

(A) The Shipper must prepare and present a legible non-altered Air Waybill with each Shipment tendered for transportation. If the Shipper fails to present an Air Waybill, Alaska Airlines will prepare an Air Waybill on behalf of the Shipper and Consignee, and the shipper shall be bound by it.

(B) The Air Waybill must have complete physical addresses and telephone numbers of the Shipper and Consignee. Abbreviations and initials are not acceptable.

(C) The Shipper shall provide any other documents required by federal, state, and/or local regulations.

(D) No information on the Air Waybill, or status of the Shipment, will be given out to anyone other than the Consignee, the Shipper, or an agent of either.

DESCRIPTION OF SHIPMENTS ON THE AIR WAYBILL

(A) The contents of the Shipment must be indicated by accurate and specific description on the Air Waybill.

(B) The number of pieces included in a Shipment must be specified on the Air Waybill. A shipper-loaded container, or Shipper shrink-wrapped pallet will be considered one piece. The description must include the type of pallet or Container (see CONTAINER SPECIFICATIONS, i.e. Type A).

PACKING AND MARKING REQUIREMENTS

(A) Each piece of the Shipment must be legibly and durably marked by the Shipper with the name and address of the Shipper and the Consignee. Consignee phone number is required, if perishable. Marking includes the application of special handling stickers, such as “THIS SIDE UP”, “FROZEN”, “COOL”. Old and/or non-applicable labels or markings must be removed or covered up.

(B) Packaging:
1. All articles must be properly packed and packaged to insure safe transportation when accorded ordinary handling.
2. Alaska Airlines will not accept a shipment for transportation when it appears that the shipment is:
   (a) Improperly packed or packaged;
   (b) Of a kind or type likely to incur damage from high or low temperature, not withstanding the ordinary care in handling of such shipment by Alaska Airlines when available facilities cannot protect the shipment against such conditions;
   (c) Of an inherent nature or defect which indicates that transportation could not be furnished without loss or damage to the shipment or damage to Alaska Airlines facilities or equipment.

EXCEPTION: When Alaska Airlines, at the time shipment is tendered, notes on the air waybill that deficiencies exist in packaging or environmental requirements, and that Alaska Airlines will not be liable for damages incurred as a direct result of the stated deficiencies or cited inherent defects, and notes as “Shipper’s Risk” on the air waybill.
### SHIPMENTS NOT ACCEPTABLE

The following Shipments will not be accepted for transportation, or if accepted in error are subject to rejection:

- **A** Shipments that require Alaska Airlines to obtain a Federal, State or local license for their transportation will not be accepted when Alaska Airlines has elected not to comply with such requirements.

- **B** Shipments not accompanied by proper documentation and necessary information as required by any convention, law or government regulation.

- **C** Shipments that Shipper cannot make written guarantee of payment of transportation charges or return transportation charges, if required by Alaska Airlines.

- **E** Alcoholic beverages:
  1. Shipments containing alcoholic beverages destined to a community in Alaska that has voted to ban the importation of alcohol.
  2. (Applicable to communities which have voted to ban the sale of alcoholic beverages) Shipments containing alcoholic beverages not consigned to the individual purchaser of the beverage, or not consigned to the community delivery site in those communities that have established them.

- **F** Ice Cream or similar frozen products will not be accepted, unless prior arrangements have been made.

### SHIPMENTS SUBJECT TO ADVANCE ARRANGEMENTS

The Shipper must contact Alaska Airlines to determine shipping requirements, and must advise Alaska Airlines of the pertinent facts prior to tender, when the extent of Alaska Airlines' liability may be questionable, or when the Shipment:

- **A** Requires special attention, protection, or care, including Articles of Extraordinary Value, Live Animals, and Human Remains;

- **B** Is likely to impregnate or otherwise damage equipment or other Shipments.

- **C** Is near or exceeds weight and/or height restrictions (see **CARGO SIZE LIMITATIONS**);

- **D** Has a Declared Value over $250,000.

- **E** Consists of over 1,000 pounds of perishable seafood, or;

- **F** Requires priority service (see **APPLICATION AND PRECEDENCE OF RATES**).

### INSPECTION OF SHIPMENTS

- **A** All shipments are subject to inspection by Alaska Airlines, but Alaska Airlines shall not be obligated to perform such inspections.

- **B** Consignee may not inspect or examine the contents of any part or any package in the Shipment prior to paying and signing for receipt of the Shipment on the delivery copy of the Air Waybill.
AVAILABILITY OF EQUIPMENT AND SPACE
Alaska Airlines will transport, consistent with its capacity to carry, all cargo accepted for transportation. Irrespective of rates published for a specified market, all Shipments are subject to the availability of equipment and aircraft of the size and type necessary to accommodate a Shipment (see ROUTING AND REROUTING). Alaska Airlines AOG (aircraft-on-ground) parts and “Must Ride” Shipments, Passengers and their baggage, US Mail, “GoldStreak” Package Express Shipments, and Shipments traveling at a surcharge of the General Commodity Rate shall at all times have transportation priority over all other types of air cargo. Alaska Airlines will determine the order of carriage between Shipments in the same rate/service category.

CARGO SIZE LIMITATIONS
(A) This chart shows the maximum limits of each cargo dimension that can normally be accepted. Acceptance is determined by the combination of the height, width, and length of piece. Charts showing all combinations of the 3 dimensions for specific aircraft can be found at any Alaska Airlines Cargo Office, in the Air Cargo Guide Supplement published by the OAG or see www.alaskaair.com.

Unless specific instructions to the contrary are provided on the Air Waybill by the Shipper, Alaska Airlines may route to another transportation agency (air or surface carrier such as a Road Feeder Service) in order to expedite or accommodate movement of the Shipment. If Alaska Airlines is unable to contact the Shipper concerning a rerouting of the Shipment, the transportation charges incurred as a result of the rerouting shall not exceed the Air Cargo charges shown on the Air Waybill from point of origin. If the person paying the cargo transportation charges request Alaska Airlines to reroute to another carrier, the charges will be recomputed for the new routing.

13 SCHEDULES
Except as otherwise provided in the Rules and Regulations, Alaska Airlines has no obligation to commence or complete transportation within a certain time according to any specific schedule, or to make connections with any other carrier, or for error in any statement of times of arrival or departure.

Any provision of these Rules and Regulations that is inconsistent with, i.e., more restrictions than any provision of said Convention shall, to that extent, be applicable to international transportation.

   (1) Alaska Airlines accepts and transports Live Animals in accordance with Title 9 of the US Code of Federal Regulations (9CFR) Subchapter A-Animal Welfare. Copies are available from each state’s US Department of Agriculture Veterinarian in Charge and are on file at all Alaska Airlines Cargo Offices. Live Animal Shipments conforming to International Air Transportation Regulations (IATA) Live Animal Regulations are acceptable except when in conflict with 9CFR.

   (2) Live Animals includes all live mammals, birds, fish, crustacean, shellfish, insects, reptiles, worms and amphibian, not for human consumption.

   (3) Animals traveling interstate as cargo must have a certificate issued by a licensed veterinarian, certifying that the animal(s):

      (B) Appears free of infectious disease or physical abnormality which could endanger the animal or any other.
(4) Acceptance and transportation of Live Animals is subject to Advance Arrangements and special conditions. Information will be provided to the Shipper or Interline Carrier at the time Advance Arrangements are made.

(6) The number of live animals and/or birds must be specified by the Shipper on the Air Waybill, in addition to the number of pieces being shipped.

(7) Shipments of live crustacean or shellfish will only be accepted on a “Shipper’s Risk” basis (see PACKING AND MARKING REQUIREMENTS).

When pickup has not occurred within three (3) hours of arrival, Alaska Airlines will then have the option to either place the animal(s) in a commercial kennel or an animal care facility at Consignee’s expense, or return the animal(s) to its origin at Shipper’s expense.
